

Mission MOONSM

Explore!

What do you need to know about the Moon to live there? What will you eat and drink? How will you get energy? How will you breathe? What will you do for fun? What other problems will you have to solve?

Create and Test!

Design and build a Moon Base. Use the LEGO® rocket ship and other elements from the Inspire Set to help you. Show your ideas for how to solve one or more of the problems you explored. Also be sure to use LEGO® Education WeDo 2.0 to build and program at least one motorised part of your Moon Base.

Share!

Make a *Show Me* poster. Use it and your Moon Base to share what you have learned with others. Participate in an Expo, invite your family and friends to a special team meeting, or share your *Engineering Notebook* to show what you know about living on the Moon!

The STEM Agenda

Did you know that *Science, Technology, Engineering and Mathematics (STEM)* has become the main focus not only for the Ministry of Education Malaysia, but also for educators and leaders all around the world?

STEM education creates critical thinkers, increases science literacy, and enables the next generation of innovators. As technology continuously expands into every aspect of our world, STEM skills will undeniably be the core ingredient of every effective worker in the future.

Start a Team

FIRST® LEGO® League Jr. captures the curiosity of young children aged 6 to 10, and directs it toward discovering the wonders of science and technology. Children explore and research a real-world topic, design and build a model using LEGO® elements while making sure there is at least one motorised part, and then present their findings on a poster.

1

Learn about what we do

Each August, the program releases a two-part Challenge for teams.

- **Create:** Teams illustrate their research and team journey in a *Show Me Poster*, sharing what they studied and learned.
- **Build:** Teams design and build a Team Model based on the Challenge, representing what they have learned.
- **Program:** Teams use LEGO® Education WeDo to build and program a model that moves, learning basic engineering and programming concepts.

2

Form your team

You need:

- Up to 3 team members
- 1 Coach
- Meeting space
- Computer with internet access

3

Register & gather your materials

You need:

- **FIRST® LEGO® League Jr. Inspire Set** – includes bricks, elements, and an exclusive model that serves as the hub of every season.
- Poster board
- Markers

4

Begin work on the Challenge

Explore:

- Visit the **FIRST® LEGO® League Jr. YouTube Channel** for Getting Started Tutorials and more
- See what other teams are doing at www.pinterest.com/firstinspires

5

Take part in FLL Jr. Malaysia

Share your hard work

- Compete and practice FLL Jr. Core Values by celebrating discovery, teamwork and **Gracious Professionalism™**.
- Share ideas with other teams on Pinterest: www.pinterest.com/firstinspires
- Plan a time to present what you've done with friends and family.

ACCESSORIES
