

FIRST® LEGO® LEAGUE MALAYSIA 2025/2026

NATIONAL LEVEL

FIRST® LEGO® League introduces Science, Technology, Engineering and Math (STEM) to children through fun, exciting hands-on learning. FIRST® LEGO® League participants gain real-world problem-solving experiences through a guided, global robotics program, helping today's students and teachers build a better future together. In FIRST® LEGO® League, students engage in hands-on STEM experiences, building confidence, growing their knowledge and developing habits of learning.

This year, during the UNEARTHED™ season, FIRST® LEGO® League teams will use creative thinking and LEGO® technology to explore a dig site, carefully excavating artifacts hidden beneath layers of rock and soil and uncovering clues that reveal stories of past civilizations. They'll prepare to unearth hidden treasures and piece together the past as they embark on this thrilling journey of discovery!

FIRST LEGO LEAGUE
